

We're about service!

We pride ourselves in being one of the most versatile and flexible companies in Namibia

Our core speciality is off-grid, fully functional container conversions anywhere, no matter how remote the location. We take charge from conception, through construction to delivery and setup - even an ongoing maintenance plan.

Since 1996, Cowboy's Group of Companies has expanded from construction to include everything from rigging and steel manufacture to luxury container conversions, the setup and management of remote camps, powder coating, farming, catering, transport, and translocation of large animals, as well as rental solutions.

Headed by Heinz 'Cowboy' & Ulla Büttner, and recently joined by Marco 'Cowboy Junior' Büttner, with a Master's Degree in Metal Construction, Cowboy's Group of Companies has a reputation for exceptional service, quality products, and delivering truly turnkey solutions.

We give our clients one point of contact to a resourceful, connected team willing to take on anything

Buying, leasing or custom-made, we are your solution

We specialise in converting containers into anything from basic on-site storage units to ablutions, workshops and fully functional kitchens, air-conditioned offices, and even luxury accommodation, all in extremely remote locations.

Cowboy's converted containers can be hired or bought and are delivered, and set up for you according to specific specifications. All are easily relocatable, sturdy, insulated, and superbly finished. All containers conversions are constructed to the highest quality and international standards and our dedicated container experts manage your project from design to on-site placement and even include a maintenance plan..

*You dream it,
we'll make it*

Constructing and delivering temporary or permanent lodging and camping

We constructed and delivered the staff accommodation and communal area for Shipwreck Lodge where 30 shipping containers were converted into bedrooms, bathrooms, lounges, kitchen, dining areas, offices, laundry rooms, storage rooms, and a manager's house. All delivered to the remote Skeleton Coast and set up under notoriously challenging conditions.

Amongst our larger projects is the creation of full-board temporary villages that have housed up to 200 people in both container homes and luxury tents, complete with air conditioning, solar power, water and sanitation as well as access roads and perimeter fencing.

We set up ablution blocks, laundry rooms, kitchens, gyms, entertainment rooms, and even fully stocked corner cafés. All connected with gravel pathways to keep the dust down. With a high degree of attention to detail, we include full maintenance as well as ensuring water reticulation and electrical supply.

Cowboy's rental solutions offer a lot more than just containers for hire

This division of our service includes property rental, an extensive range of specialised equipment – generators, scaffolding, chemical toilets, water tanks, beer tents, tables, benches, and catering equipment.

Our onsite storage yard offers 24-hour high security, paved access with options to deliver containers to your own premises.

We supply containers fitted as offices, workshops, accommodation and ablution units – rent or own, we supply your requirements. Depending on your requirements, container size options are 3-meter, 6-meter and 12-meter – customised or delivered immediately.

Cowboys is also fast becoming Namibia's biggest and most trusted source of film-set props and professional photo-shoots.

Transportation is the core of our operation

With our extensive fleet of vehicles, we are equipped for any transport and container moves - from the delivery of livestock, water, plant and equipment and machinery, as well as the removal of waste.

Our specialised team and vehicles are equipped for the safe capture, loading, transport and release of wildlife including Rhino and Elephant.

*we've grown and
continue to expand
our fleet*

Building Schools for Namibia's rural youth

Cowboy' Group of Companies is uniquely positioned to supply remote schools for Namibia's rural youth with safe and healthy learning environments.

From our well-known container conversion solutions, and independent transportation fleet - and our status as the only official school furniture manufacturer with its own powder coating plant in Namibia - Cowboy's is the team that makes it look like

"schools are falling from the sky"

We can powder coat 800 pieces of school furniture a day, build a school for 60 scholars in 8 days, deliver 37 tons of finished classrooms hundreds of kilometres away - and still have time to plant giant trees for children's lunch time shade

We are passionate about maintaining the elegance and functionality of steel structures

From planning, design and construction our services include project management on a wide range of structural and architectural projects. We have the experience and expertise for any operation from farm barns to steel bridges and large commercial projects.

Our expertise extends to recommendations on the selection of materials in terms of durability and sustainability and from prototype design to production, our experienced team controls every step of the process. Our extensive workshop has state-of-the-art cutting and bending machinery capable of any size project.

- Structural steel and metalwork
- Steel facades and louvre panel systems
- Bridges
- Entrance canopies and carports
- Steel trusses and girders
- Film sets
- Farm sheds
- Staircases, handrails and balustrades

Sustainable farming, the family way

Fresh from our 3500 hectare Hochfeld family farm straight to you.

Our holistic farming approach means we produce our own livestock forage thus ensuring top quality meat which is processed in our own butchery

We produce and supply fresh meat, vegetables and fruit straight from our farm to remote camps and lodges delivering cost effective and value for money produce. With our full service remote camp expertise, we're able to supply good quality meals no matter where you are..

We're here for you
